

Deliverable: Design System Specimen, Documentation, Tests and Code Defense

No Generative AI was used

S1) Foundation and reset:

INCLUDED - *, *::before, *::after { box-sizing: border-box; } so padding and border can stay inside the set width and no element can push the layout past the 320px viewport

<https://developer.mozilla.org/en-US/docs/Web/CSS/Reference/Properties/box-sizing>

INCLUDED - * { margin: 0 ; } to strip default margins so all spacing comes from tokens and layout.

<https://developer.mozilla.org/en-US/docs/Web/CSS/Reference/Properties/margin>

INCLUDED - img, picture, svg, video, canvas { display: block; max-width: 100%; }

To remove the inline-baseline gap under images, and max-width: 100% stops media from overflowing on narrow screens

<https://developer.mozilla.org/en-US/docs/Web/CSS/Reference/Properties/max-width>

INCLUDED - input, button, textarea, select { font: inherit; }

Font-family/size aren't inherited by form controls by default and inherit so inputs and buttons end up matching.

https://developer.mozilla.org/en-US/docs/Learn_web_development/Extensions/Forms/Styling_web_forms

INCLUDED – body { overflow-wrap: break-word; }

long urls and words will wrap rather than having to horizontal scroll.

<https://developer.mozilla.org/en-US/docs/Web/CSS/Reference/Properties/overflow-wrap>

OMITTED – no global list-style/padding reset

<https://developer.mozilla.org/en-US/docs/Web/CSS/Reference/Properties/list-style>

OMMITTED – :focus visible , using native keyboard focus. <https://developer.mozilla.org/en-US/docs/Web/CSS/Reference/Selectors/:focus-visible>

S2) Token Inventory

Raw palette:

--red-600: #c1272d; tomato ish red
--green-700: #2f5d3a; darker green like a basil color
--gold-500: #e0a92e;
--cream-50: #fbf6ec; [background color]
--white: #ffffff;
--brown-900: #211b17;
--brown-400: #7a6d61;

Semantic role colors:

--color-bg: var(--cream-50); background
--color-surface: var(--white); cards
--color-text: var(--brown-900); body text
--color-muted: var(--brown-400); secondary text
--color-border: var(--brown-400); dividers
--color-action: var(--red-600); links
--color-accent: var(--green-700); labels or highlights

Spacing: added a rem step for gaps and flow

--space-2xs: 0.5rem;
--space-xs: 0.75rem;
--space-sm: 1rem;
--space-md: 1.5rem;
--space-lg: 2rem;
--space-xl: 3rem;

Sizing and measure: readable line length and max page width

--measure: 65ch;

--container: 64rem;

Radius and elevation:

--radius-sm: 0.25rem; [small inputs]

--radius-md: 0.5rem; [buttons or cards]

--elevation-1: 0 1px 2px rgba(33, 27, 23, 0.08); [resting cards]

--elevation-2: 0 4px 12px rgba(33, 27, 23, 0.12); [raised/hovering]

Typography:

--font-body: Georgia, "Times New Roman", serif;

--font-display: Georgia, "Times New Roman", serif;

--text-base: 17px;

--leading: 1.6;

--leading-tight: 1.15;

--weight-regular: 400;

--weight-bold: 700;

Fluid scale: so sizes stay readable at 320px and don't get very large on wider screens

--step--1: clamp(0.85rem, 0.82rem + 0.15vw, 0.94rem); small

--step-0: var(--text-base); body

--step-1: clamp(1.20rem, 1.13rem + 0.35vw, 1.40rem); lead or h3

--step-2: clamp(1.50rem, 1.35rem + 0.70vw, 1.95rem); h2

--step-3: clamp(1.90rem, 1.55rem + 1.70vw, 2.75rem); h1

S3) Typography:

Font source / License note

Source PT Serif

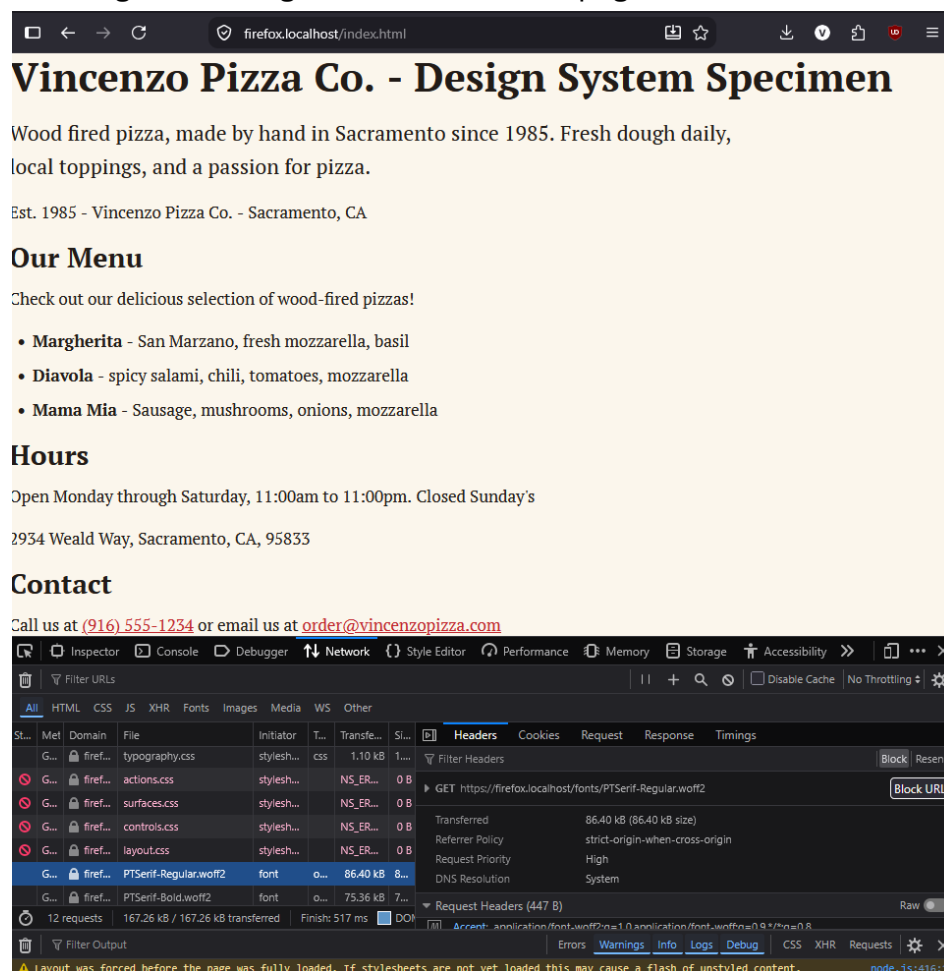

Obtained from Google fonts

Converted from .ttf to woff2 using <https://cloudconvert.com/ttf-to-woff2> then hosted them in /fonts folder

License: SIL Open Font License, Version 1.1 located in fonts/OFL.txt

Fallback Evidence:

Blocking PTSerif-Regular.woff2 to see the page fall back

After blocking the URL the page falls back to the Georgia font:

Vincenzo Pizza Co. - Design System Specimen

Wood fired pizza, made by hand in Sacramento since 1985. Fresh dough daily, local toppings, and a passion for pizza.

Est. 1985 - Vincenzo Pizza Co. - Sacramento, CA

Our Menu

Check out our delicious selection of wood-fired pizzas!

- **Margherita** - San Marzano, fresh mozzarella, basil
- **Diavola** - spicy salami, chili, tomatoes, mozzarella
- **Mama Mia** - Sausage, mushrooms, onions, mozzarella

Hours

Open Monday through Saturday, 11:00am to 11:00pm. Closed Sunday's

2934 Weald Way, Sacramento, CA, 95833

Contact

Call us at (916) 555-1234 or email us at order@vincenzopizza.com

The screenshot shows the Network tab of a web browser's developer tools. The 'Blocking' tab is selected, showing a list of blocked requests. The requests are:

Method	Domain	File	Initiator	Type	Size	Time
GET	fire...	actions.css	styles...	NS_ER...	0...	0 ms
GET	fire...	surfaces.css	styles...	NS_ER...	0...	0 ms
GET	fire...	controls.css	styles...	NS_ER...	0...	0 ms
GET	fire...	layout.css	styles...	NS_ER...	0...	0 ms
GET	fire...	PTSerif-Regular.woff2	font	Block...		
GET	fire...	PTSerif-Bold.woff2	font	Block...		
GET	fire...	favicon.ico	img	h...	66 B	6...

The bottom of the screenshot shows a warning message: "Layout was forced before the page was fully loaded. If stylesheets are not yet loaded this may cause a flash of unstyled content." The status bar at the bottom indicates "node.js:416:1".

S4) Actions and States

State tokens: Three tokens added, --color-action-strong (hover and active), --color-on-action, and --color-focus.

Links: Used color-action and darkened color-action-strong on hover. Underline is kept so links don't rely on color alone.

Buttons: Primary button is filled, secondary is outline and fills when hovered.

Disabled: Applied to buttons and uses a color muted to look inactive

Focus: :focus-visible rule gives each link and button a visible ring

S5) Surfaces and content patterns:

Two card patterns: Raised card pattern used a soft --elevation-1 shadow. The outlined card is flat with a thin border instead. Menu is raised and hours is outlined, showing the difference between shadow and border

Callout: notice with a colored left bar

Media placeholder: Media box preserved a 16:9 space with a label.

Spacing and elevation: All surfaces used the same padding, radius and elevation tokens so they stay consistent.

S6) Control foundations:

Inheriting the type system: font: inherit in the reset, the input and select use PT Serif instead of the browser default.

Labels: every control has a label tied to its id, so clicking a label activates its control.

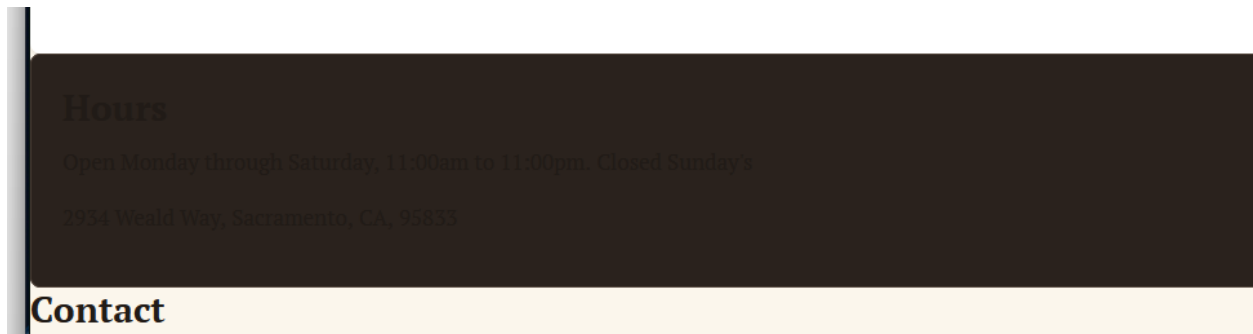

Focus: the controls reuse the same :focus-visible ring from S4 so focus is visible

Scoped override:

The .theme-alt class shows a darker theme to use at night by overriding only the color tokens. Applying the class theme-alt to the hours section re-themed the whole card.

Evidence based revision:

Problem: After adding .theme-alt to the hours card, the background went dark but the text stayed dark making it unreadable.

Cause: Color was only set on body, so the text inherited the old dark color

Fix: Added color: var(--color-text) to .card and .card-outline so each card re-reads the text token.

Result: Much more readable now.

Hours

Open Monday through Saturday, 11:00am to 11:00pm. Closed Sunday's
